# Nathan Wilke [Nathan W o k e]:

- Previous: Implemented getting users top 5 artists from last.fm api. It currently outputs these artists to the console
- Tomorrow: Have the app output the artists to the proper section
- Blocks: There is an error if the user has less than 5 top artists

# Sehun Joo:

- Previous: Created adding admin functionality + proper reducers
- Tomorrow: Create admin functionality such as deleting other users
- Blocks: Cannot properly call existing collection of admins

# Jordan Hassmann

- Previous:
    - Users can now fully delete their profiles
- Tomorrow:
    - Further test deletion edge cases
- Blockers:
    - None

# Akash Gajendra

- Previous:
    - Explored deezer API
    - Compiled sprint performance metrics
- Tomorrow:
    - Setup backend redirect to the user profile page from user search bar
    - Implement connection with deezer API
- Blockers:
    - None

# Joshua Mo

- Previous

- Fully implemented notification system in the project (backend and frontend)
- Tomorrow
    - Test and debug notification system
- Blockers
    - None
